

Perched atop a bluff overlooking more than 100 feet of west-facing Lake Minnetonka shoreline, this modern masterpiece is the perfect complement to its unforgettable setting. Created in partnership with Charlie & Co. Design and with interior design by Ellington & Co. Design, this home was designed to capture the magnificent views of Lake Minnetonka while maximizing outdoor spaces. The contemporary style comes to life through clean lines and bright, inviting colors. Carefully selected materials, such as rift white oak and blackened steel, interact and transition seamlessly with each other.
